

Q So he's got about \$5500 cash?

A Yes; and the house I imagine would be \$12,000. I took fire insurance out on it and they valued it at \$12,000.

Q Who is occupying the house at this time?

A My grandmother, Mrs. Amy Shook.

Q She is occupying it by herself?

A Yes, we can't get anyone to go there with her - she won't have anyone in.

Q How old is she?

A 85.

Q Mr. Shook is 89?

A 89. That is another problem we haven't been able to settle, with my grandmother. But we can't do much about it now.

Q (The Court) Mr. Shook's income, I suppose is not sufficient to pay Vindobona charges?

A No, it is not. I don't know what we are going to do. When Medicaire runs out it will be \$95.00 a week to keep him up there, and the \$5,000 won't last long.

Q How long does Medicaire go?

A We were under the impression it would take care fully of everything for 20 days and we would have to pay \$5.00 a day for the next 80, and just this week we were told if the doctor says that he is no longer a Medicaire case that they can stop the Medicaire and we will have to start paying for him up there. Dr. Crouche and Dr. James Thomas are the doctors.

THE COURT: All right, Mr. Price, make the bond at \$5,000, because the real estate they cannot sell without some order coming from the Court.
